### Charming Travel Talk.

The Rev. Robert W. Forsyth was the speaker at Woman's Club yesterday afternoon. By special request he gave the second of his delightful "Travel Talks" delivered this season. Mr. Forsyth is a charming speaker and his subject, "Holland and the Rhine," gave opportunity for the display of the speaker's power of description and vividness of word portraiture.

He told of Holland and its whole-hearted, thrifty people; of Cologne and its great cathedral and of Bonn and its great university.

Then he spoke in simple language of the legends that have clustered about the ruins of the Rhine, of the search for the Rhinegold, and all the stories that have been immortalized in verse and story.

Among the guests of the afternoon were Miss Mary Norwood, Mrs. Anna Deane Carr and Miss Lolla Catesby Jones.

Mrs. R. Hughes Lindsey and Mrs. F. W. Travers served tea, and Mrs. Frances Scott and Mrs. Gideon A. Dayvort poured coffee.

Swiss watches were well enough sixty years ago when there were no American watches. American genius discovered that watches could be best made by machinery, and from that discovery developed WALTHAM WATCHES. To compare Swiss watches with Waltham watches is like comparing William Tell with Abraham Lincoln. If a dealer recommends a Swiss watch, it is because of a greater profit to him.

Important Results Expected from Meeting of Milkmen on Thursday Night.

Dr. E. C. Levy, chief health officer of Richmond, has sent out a circular letter to milkmen and others announcing the beginning of a campaign for the sanitary improvement of the milk supply of the city. Milk produced or handled in an improper manner is conceded by authorities on public health to be a prolific source of disease. The letter announces a public meeting of milk producers and dairymen to be held in the Mechanics' Institute Hall on Thursday night at 8 o'clock.

At this meeting Dr. Levy will outline the plans of the department, and will show how milk may transmit disease and death, and also how the public may be protected from this insidious menace. Following the address an open meeting will be held. The requirements of the health department will not be such as to work a hardship, but will insure sanitary production and handling of milk and the proper protection of the health of the city. A campaign for cleanliness among the dairy farms will be rigidly prosecuted, and in this effort the co-operation of the farmers will be asked.
